RANDOMIZING CARD SET

1. Use 6 different colors of 3X5 cards
2. Number the cards in the center 1- 30, in multiples of 6
3. In the top left corner, use a pair of words, throughout the set
4. In the top right corner, use three of a kind words, symbols, etc.
5. In the lower left corner, use four of a kind words, symbols, etc.
6. In the lower right corner, use five of a kind words, symbols, etc.
7. In the middle of the bottom, use three shapes or symbols
8. On both sides of the large center number pick two different sets of 3 of a kind. I used a,b,c and x,y,z. Once you determine your items, use the first set twice. This will use 6 cards. Then, use the second set of items twice. This will use 6 cards. Now you have 12 total cards, repeat the process for cards 13-24.
9. If you play TRASHKETBALL, turn the card over and write one letter on each card from the word M-A-T-H-O until you use up all the cards.
