Are you searching for Daily Lesson Topics Formative Assessments?

All new editable assessments and so much more to save you time

Take a look inside!

WHAT IS INCLUDED?

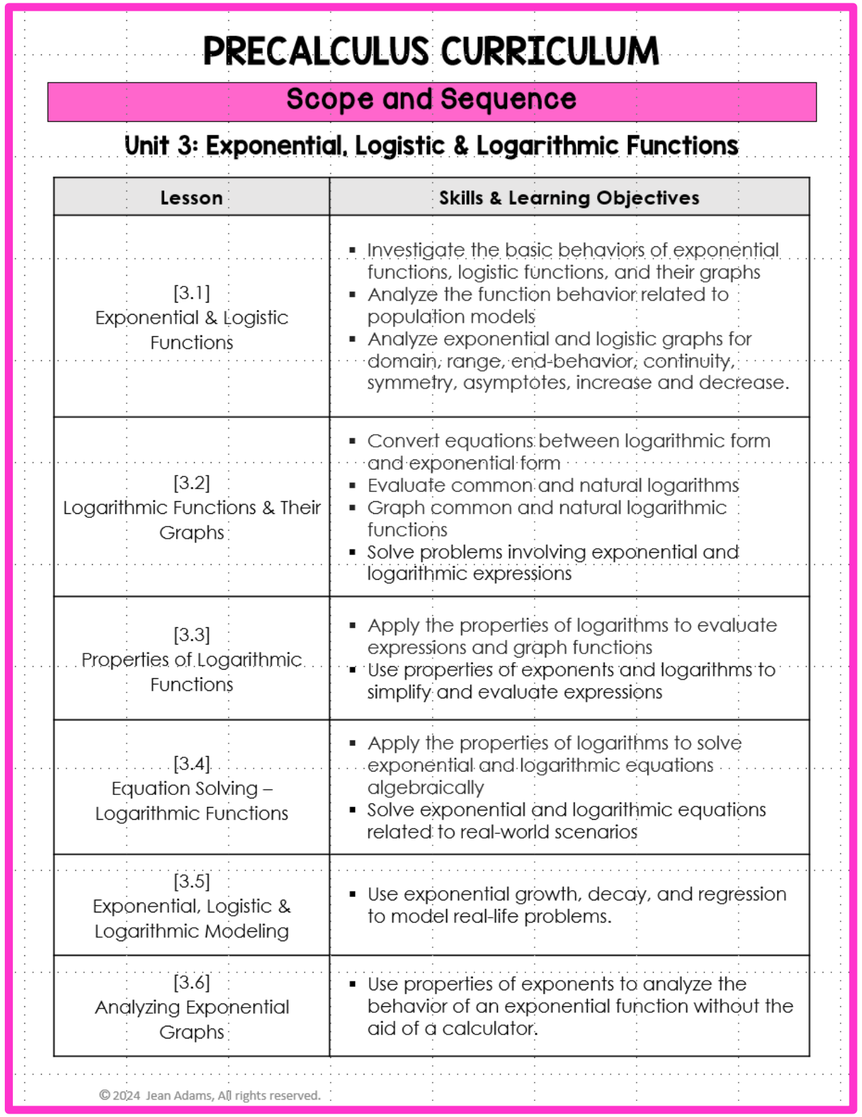

- Editable Daily Lesson Quizzes
- Full solution sets
- Two different versions
- Scope and Sequence
- Pacing Guide

Cover the Standards

Each daily lesson quiz will provide you and your students with the skills and learning objectives necessary for success in the Honors Environment.

- ❑ You will find a scope and sequence document to track the learning objectives for the unit.
- ❑ Each daily quiz is available in two unique forms.
- ❑ You will also have a ***fully-editable version*** for every lesson to create extra assessment tools.
- ❑ A pacing guide for your lessons.

PRECALCULUS CURRICULUM

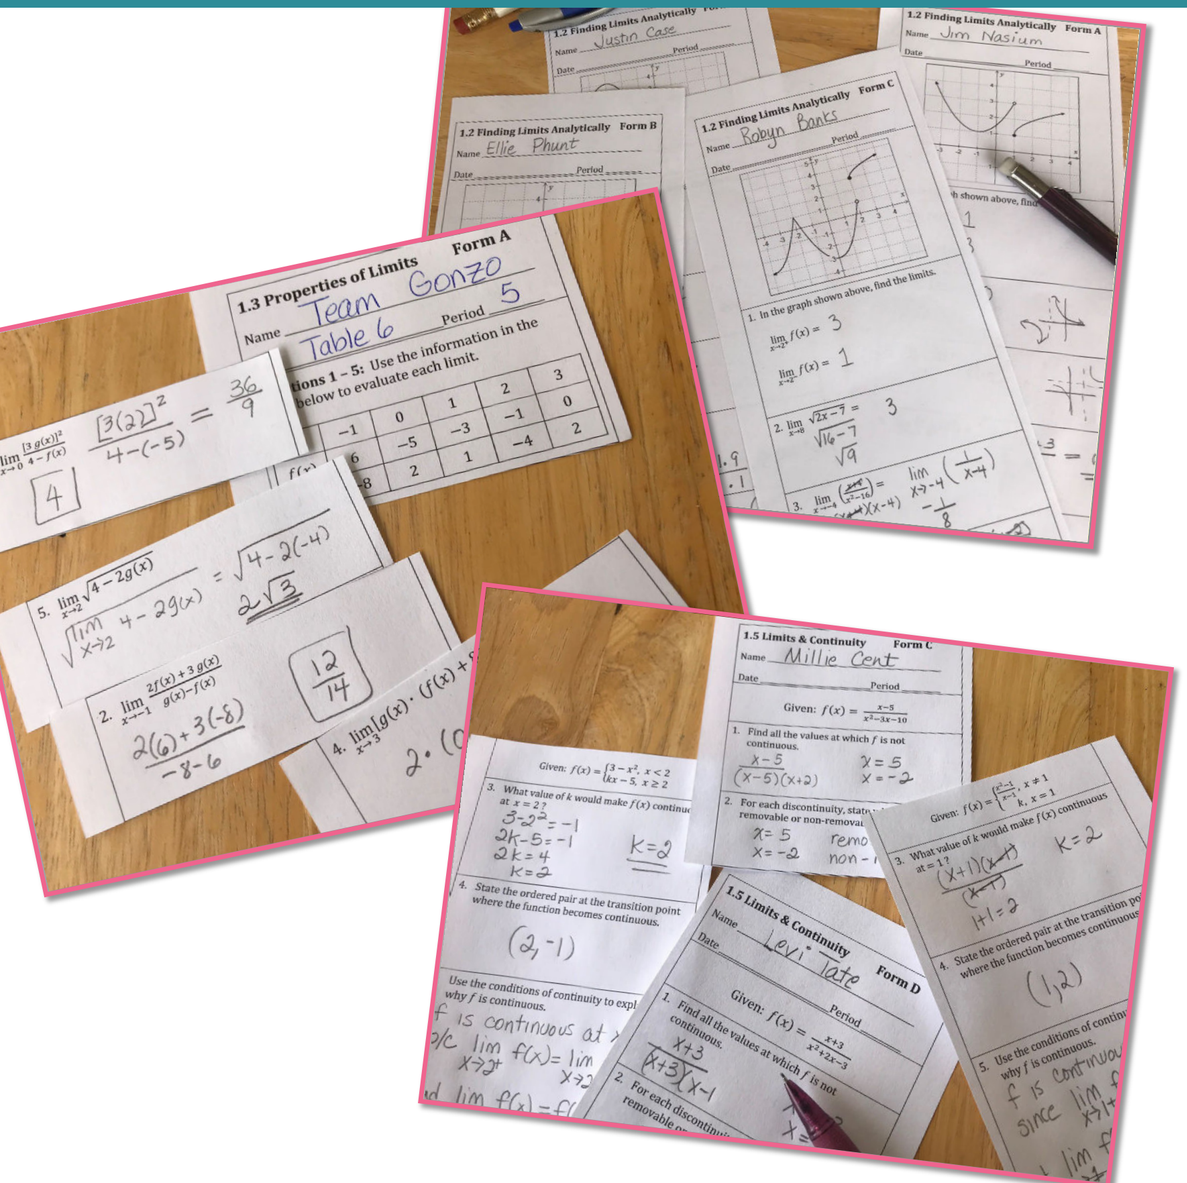

Scope and Sequence

Unit 3: Exponential, Logistic & Logarithmic Functions

Lesson	Skills & Learning Objectives
[3.1] Exponential & Logistic Functions	▪ Investigate the basic behaviors of exponential functions, logistic functions, and their graphs ▪ Analyze the function behavior related to population models ▪ Analyze exponential and logistic graphs for domain, range, end-behavior, continuity, symmetry, asymptotes, increase and decrease.
[3.2] Logarithmic Functions & Their Graphs	▪ Convert equations between logarithmic form and exponential form ▪ Evaluate common and natural logarithms ▪ Graph common and natural logarithmic functions ▪ Solve problems involving exponential and logarithmic expressions
[3.3] Properties of Logarithmic Functions	▪ Apply the properties of logarithms to evaluate expressions and graph functions ▪ Use properties of exponents and logarithms to simplify and evaluate expressions
[3.4] Equation Solving – Logarithmic Functions	▪ Apply the properties of logarithms to solve exponential and logarithmic equations algebraically ▪ Solve exponential and logarithmic equations related to real-world scenarios
[3.5] Exponential, Logistic & Logarithmic Modeling	▪ Use exponential growth, decay, and regression to model real-life problems.
[3.6] Analyzing Exponential Graphs	▪ Use properties of exponents to analyze the behavior of an exponential function without the aid of a calculator.

Rigorous assessments to help differentiate instruction time.

- Use different forms for independent work, or whole class discussion.
- Cut prompts into pieces for a collaborative group experience.
- Use as a warm-up exercise, exit ticket, or homework check grade.

Flamingo Math will help you with formative learning!

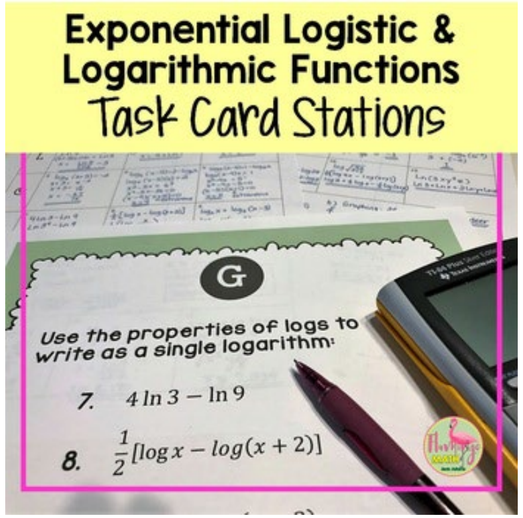

Flamingo Math by Jean Adams

More Resources for YOU

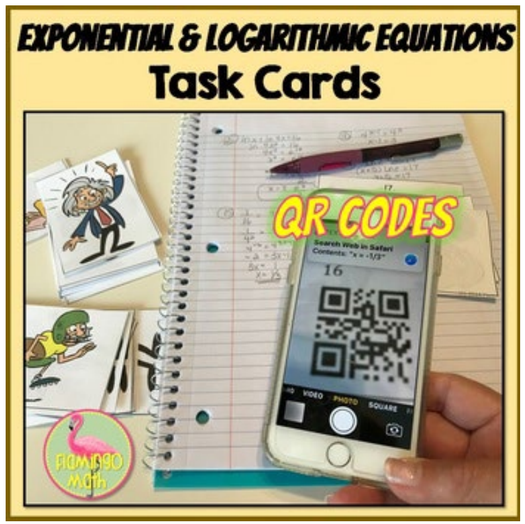

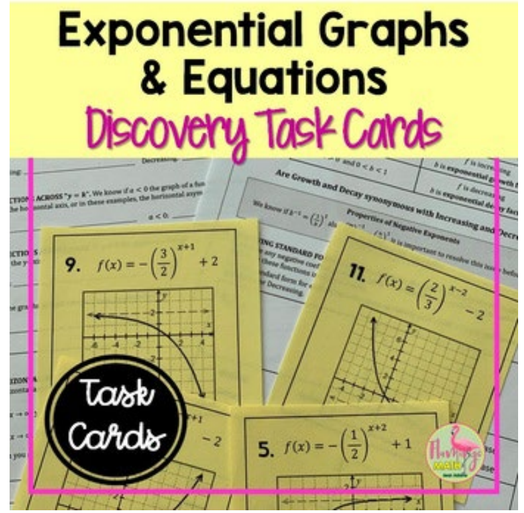

My goal is to help you bring balance into your teacher life by providing relevant content, engaging activities, and comprehensive assessments for your high-stakes math course.
