Logarithmic Equations

Thanksgiving Maze

Digital & Print

Logarithmic & Exponential Equations Maze

KEY CONCEPTS/TOPICS:

1. Solve Exponential Equations
2. Solve Logarithmic Equations

GENERAL DIRECTIONS:

Students work with Google Slides™ to complete their unique set of 15 equations with a Thanksgiving theme. As each answer is found, students will drag and drop an arrow to follow the pathway leading to the next question on the maze until they reach the finish line.

Product Overview

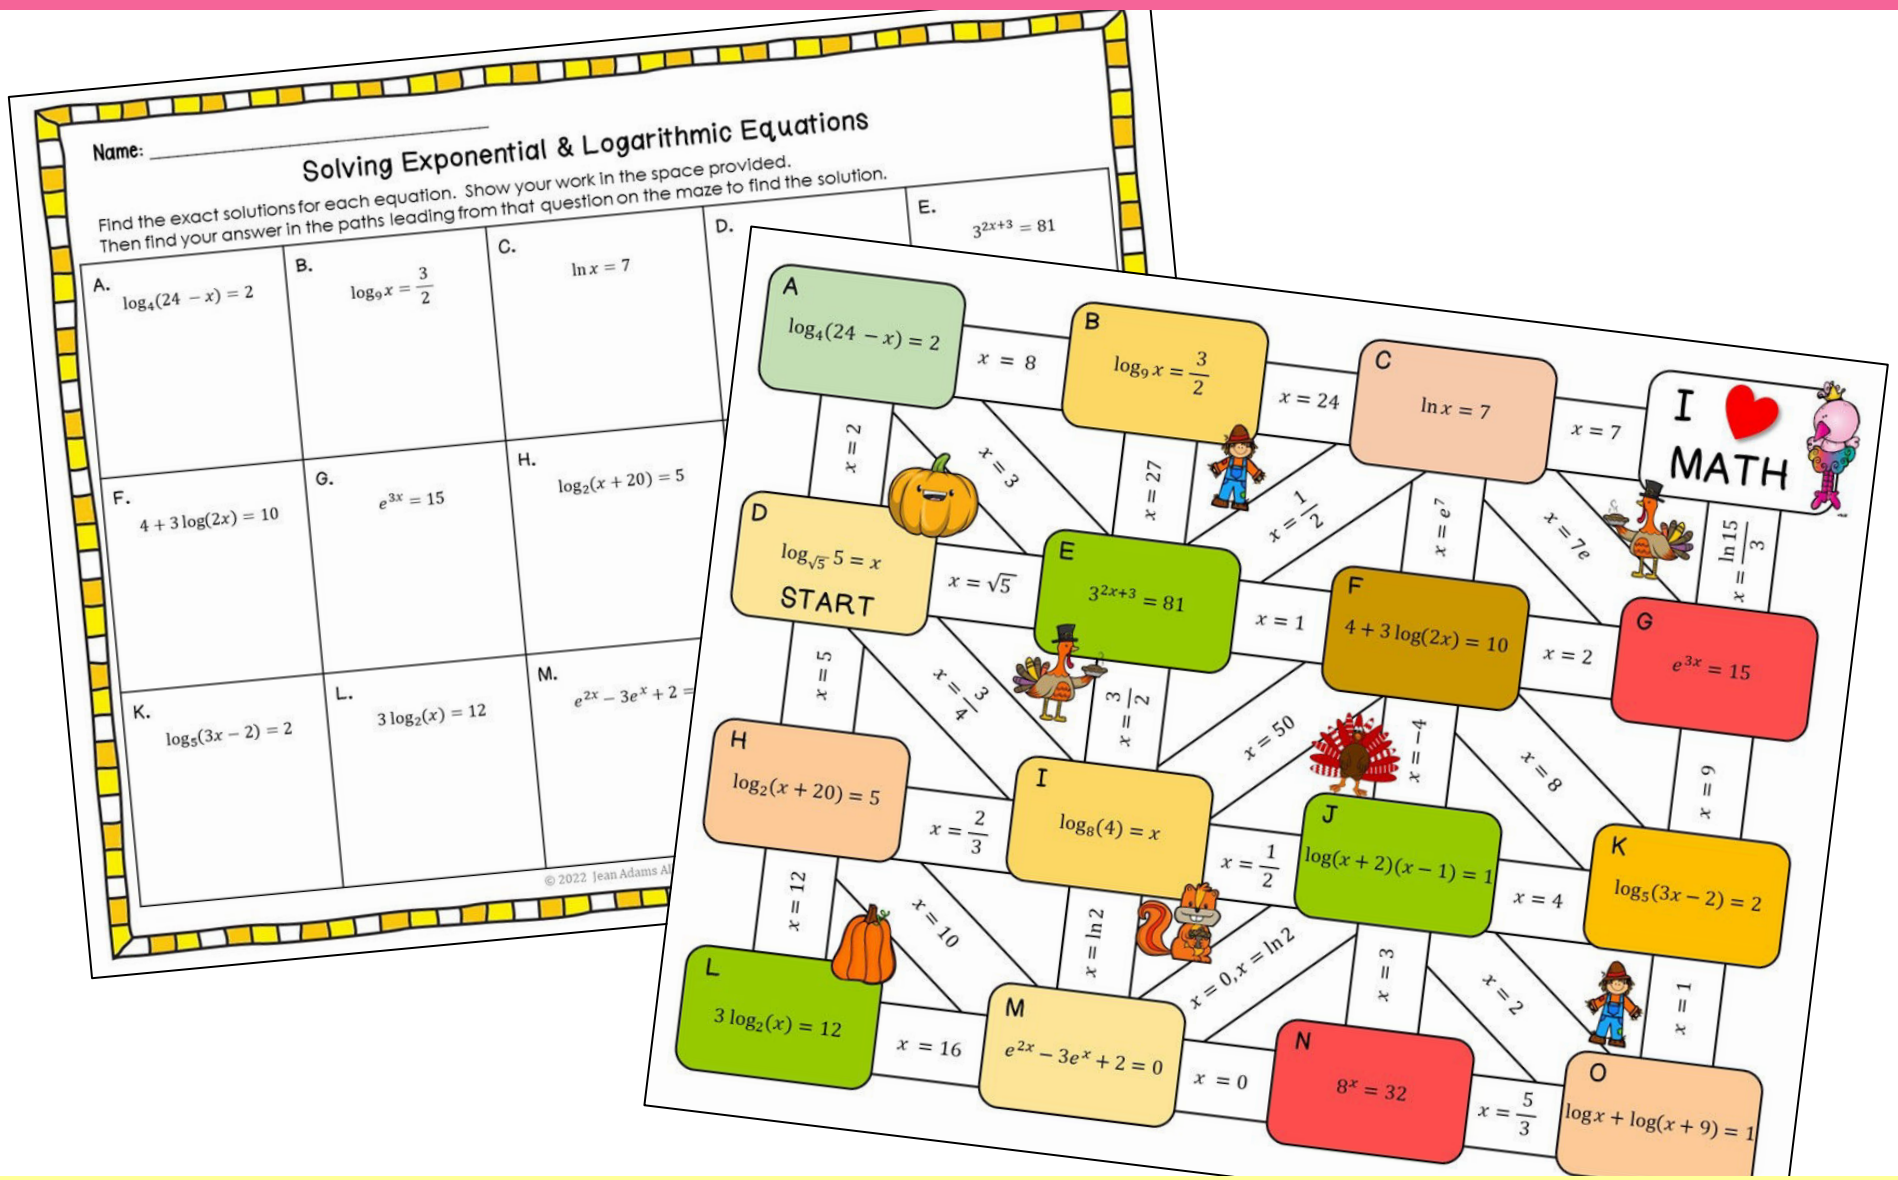

Logarithmic & Exponential Equations Maze Activity

What about a focused practice to help students solve basic logarithmic and exponential equations? It's one of those concepts that students either "get it" or don't. Not all solutions are in the designated paths. A student recording sheet is also provided. You can use this page as a paper activity.

I appreciate your comments, suggestions, and ideas.
