This is the Ultimate BIG Bundle for Systems of Equations and Matrices.

All new completely-editable bundle of notes, practice and more!

Take a look inside!

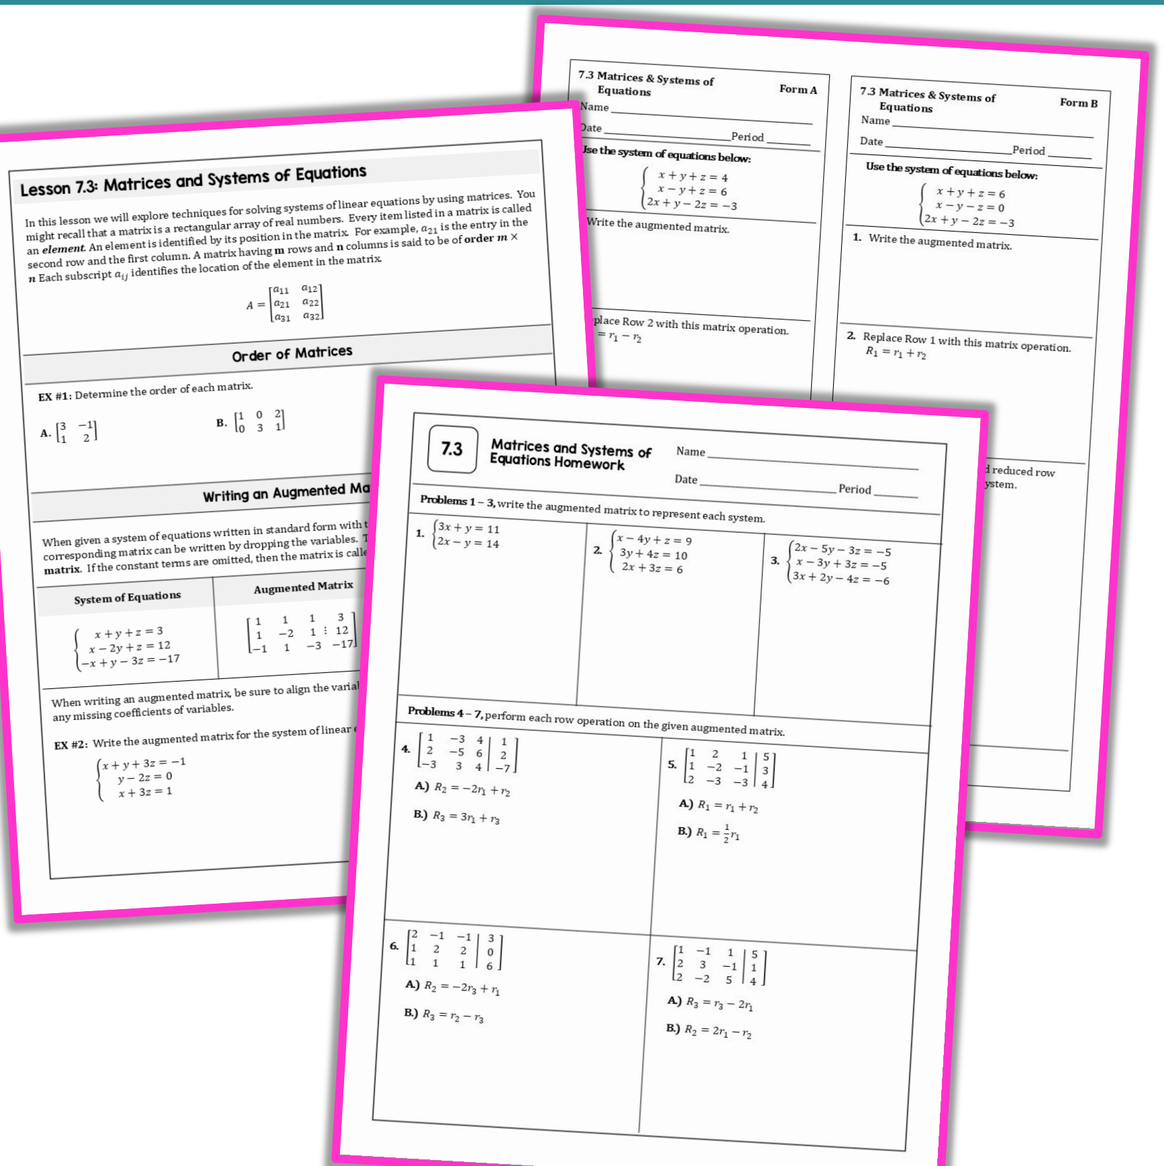

WHAT IS INCLUDED?

- Editable Guided Student Notes, Practice sets, Daily Quizzes and Warm-Ups
- Google Slides for Presentation
- Video lessons
- Assessments & Review
- Full solution sets
- Scope, Sequence, Pacing

Rigorous lessons and practice sets aligned to course standards is here.

- Where do you find extra time to write guided notes and practice sets?
- Is your class instruction aligned to the learning objectives and standards for the course?
- You need resources that will challenge your students to the necessary rigor for success.

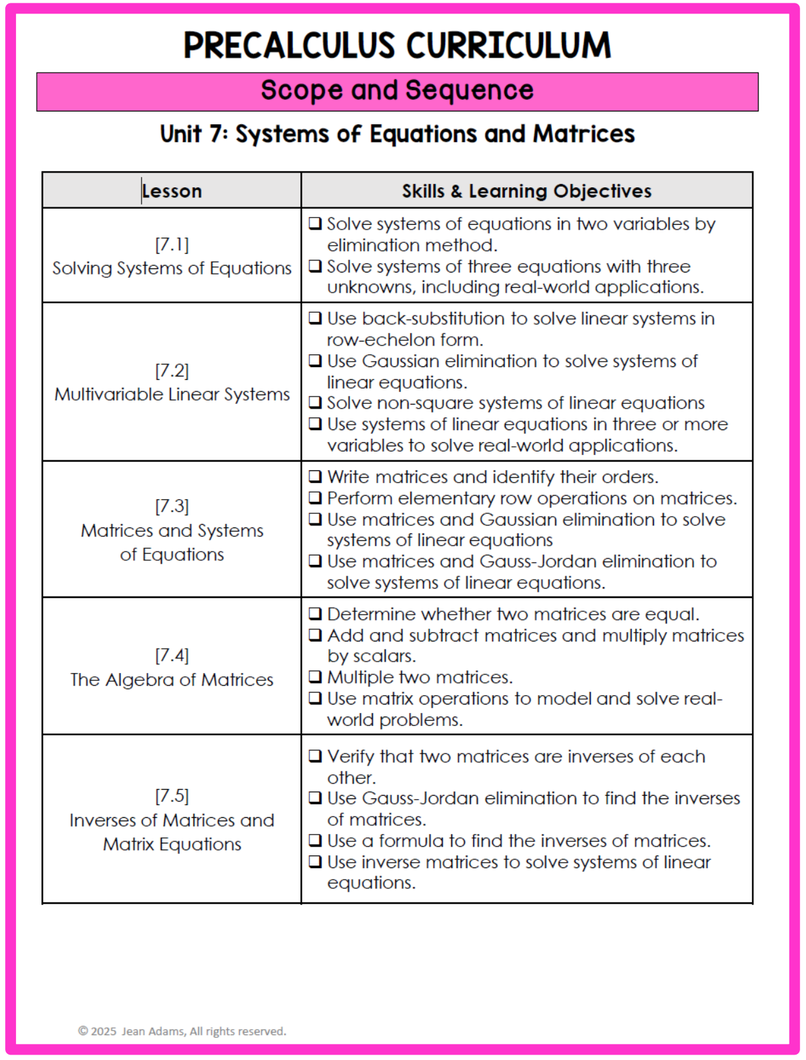

Flamingo Math will help bring balance into your teacher life!

Flamingo Math by Jean Adams

Cover the Standards

Each lesson will provide you and your students with the skills and learning objectives necessary for success in the Precalculus Honors Environment.

- ❑ You will find an editable scope and sequence document to track the learning objectives for the unit.
- ❑ Each lesson includes Google Slides for your presentation needs.
- ❑ You will also have a ***fully-editable version*** for every lesson, practice set, daily quiz warm up, and assessment.
- ❑ An editable pacing guide for both learning objectives and lesson plans is provided.

PRECALCULUS CURRICULUM

Scope and Sequence

Unit 7: Systems of Equations and Matrices

Lesson	Skills & Learning Objectives
[7.1] Solving Systems of Equations	❑ Solve systems of equations in two variables by elimination method. ❑ Solve systems of three equations with three unknowns, including real-world applications.
[7.2] Multivariable Linear Systems	❑ Use back-substitution to solve linear systems in row-echelon form. ❑ Use Gaussian elimination to solve systems of linear equations. ❑ Solve non-square systems of linear equations ❑ Use systems of linear equations in three or more variables to solve real-world applications.
[7.3] Matrices and Systems of Equations	❑ Write matrices and identify their orders. ❑ Perform elementary row operations on matrices. ❑ Use matrices and Gaussian elimination to solve systems of linear equations ❑ Use matrices and Gauss-Jordan elimination to solve systems of linear equations.
[7.4] The Algebra of Matrices	❑ Determine whether two matrices are equal. ❑ Add and subtract matrices and multiply matrices by scalars. ❑ Multiple two matrices. ❑ Use matrix operations to model and solve real-world problems.
[7.5] Inverses of Matrices and Matrix Equations	❑ Verify that two matrices are inverses of each other. ❑ Use Gauss-Jordan elimination to find the inverses of matrices. ❑ Use a formula to find the inverses of matrices. ❑ Use inverse matrices to solve systems of linear equations.

Full Year Curriculum

The MEGA Bundle provides ten units for you to design the perfect Precalculus Honors course for your state and district standards; including activities, video lessons, presentation tools, and so much more.

- Save over 20% when you purchase the full year curriculum bundle.
- Let Flamingo Math help you teach!

> "I have the AP Calculus curriculum, and it is awesome! I am so excited to use this for my Pre-Calculus classes! I know the students entering AP Calculus will be better prepared because of using this curriculum. Thank you very much! *Alicia B.*"
